

Grade 1 - Sample Lesson Plan Summer and Outdoor Safety

Objectives/Goals

- Students will have an increased awareness of safety measures in water, in the sun and on the playground.

Materials

- Playground Safety Report Card
- Water Safety Lessons from KidsHealth.org
- Safe Passages Curriculum
- Sun Safety Lesson
- K-2 Sunwise Curriculum

Procedure

- Review and list school playground safety rules and print out/modify the National Program for Playground Safety's *Playground Safety Report Card* to walk around the playground with the students and have them report hazards.
- Implement the lessons from Kids Health *Water Safety Teacher's Guide* or US Army Core of Engineers *Safe Passages Water Safety Teacher's Guide* (see references).
- Implement the Scholastic *Sun Safety Lesson* or complete one of the following 10-20 minute activities from the *Grades K-2 Sunwise Lessons* from the SunWise Toolkit: *Hot Potato*, *A Sunwise Beach Party*, *Sunny Says*, *Keep an Eye on Sun Safety*, *Wacky Sunglasses* (see references).

Assessment Idea

- Are students able to identify playground hazards?

- Can students identify 3 ways of protecting themselves from the sun?
- Can students identify 3 safety measures including supervision around water; use of PFDs; and swim lessons?
