

Urinary System

Learning Objectives

- I can identify major structures and functions of the urinary system. (6.1A)

Teacher Notes

- This lesson will include many pauses that will involve student response or time to design. Please pause the video as instructed for as long as needed.
- Students will use an exercise key provided in the video that matches the body functions of the urinary system. Teacher may want to have an additional visual of that key.

Lesson Steps: Video Outline: [6.1a Urinary System](#)

Step 1 Introduction

- What does the urinary system do?
- Can you name the parts of the urinary system?
- What are the jobs of each part of the urinary system?

Step 2 Activity

- The students will be asked questions about the urinary system. They will answer the questions with exercises by using the key provided in the video:

Kidney	Kicks
Ureter	Up - Downs
Bladder	Bunny Hops
Urethra	Arm Circles

Step 3 Closure

- Post-Assessment: This or That
 - What does the urinary system do?
 - Name the functions of the urinary system

Assessments

- Pre: Questions will introduce topic, engage learners, and access prior knowledge
- Post: This or That will demonstrate student understanding of material covered during class. Teacher will observe student choices to determine level of understanding.

Extensions/Connections/Applications

- Implementing teacher can modify correlating exercises as needed and add challenges when appropriate. Teacher can also have students share personal experiences related to their urinary system and discuss ways they think it can be improved.
