

Confident

SOLs:

Physical Education

Skilled Movement

- K.1 The student will demonstrate progress toward the mature form of selected locomotor, non-locomotor, and manipulative skills.
 - a) Demonstrate the locomotor skills of walking, running, hopping, and jumping and landing.
 - b) Demonstrate the non-locomotor movements of bending, pushing, pulling, stretching, turning, twisting, swinging, swaying, rocking, and balancing.
 - e) Demonstrate moving to a beat, using basic locomotor and non-locomotor rhythmic patterns.

Movement Principles and Concepts

- K.2 The student will demonstrate use of the movement concepts of directions, levels, pathways, and effort (force and speed) while performing locomotor skills.

Personal Fitness

- K.3 The student will participate for short periods of time in moderate-to-vigorous physical activities that cause an increase in heart rate, breathing rate, and body temperature.

Responsible Behaviors

- K.4 The student will use appropriate behaviors and safe practices in physical activity settings.
 - a) Demonstrate good listening skills when learning procedures and receiving instructions.
 - c) Demonstrate an understanding of general and personal space.

Health

Mental Wellness / Social and Emotional Skills

- K.1 The student will identify and describe key health and safety concepts.
 - p) Describe personal space.
- K.2 The student will identify healthy decisions.
 - p) Identify ways to tell someone they are entering one's personal space.

- K.3 The student will describe and demonstrate behaviors that promote health and prevent injury and disease.
 - p) Demonstrate how to tell someone they are entering one's personal space and when to ask an adult for help.

Objectives/Goals

- I can define "personal space".
- I can distinguish between personal and general space.
- I can demonstrate how to appropriately ask for more personal space, and when to ask for adult help.

Materials

- Video of *Dance Confident*, by Tammy Hanna - [LINK](#)
- Music of *Confident*, by Demi Lovato
- Video recording device- optional
- *PE Metrics* assessment rubric - optional
- Example rubrics provided - optional
- Student Peer Assessment - optional

Lesson Steps: Video Outline

Step 1 Introduction & Connections to Health Content

- Provide discussion with students about personal space.
- Identify a variety of different areas and situations around school and at home that use personal space and general space.
- Have students practice using social distancing of about 6 feet, and/or 3 feet.
- Explain how to calmly, kindly ask for more personal space.

Step 2 Basic Steps

- Use the linked video to lead students in learning dance.

Step 3 Practice

- Allow students to follow the practice section of the video.

Step 4 Closure

- Ask students how they felt about their personal space while dancing.
- Ask students to give examples of how to calmly, kindly ask for more personal space.

Assessments

- Student performance, both formative and summative, can be measured using a rubric. The instructor may comprise their own rubric using a likert scale, the rubrics provided or rubrics in *PE Metrics*.
 - Pre - have students learn the dance with the instruction section of the video, then watch and video record students practicing.
 - Allow students to use the practice segment of the video as a warm-up or part of future lessons in your unit.
 - After several practice sessions of the dance, record and post assess student performance
- Video recording is a valuable tool in assessment, especially when the class size is large and viewing all students at the same time is difficult. The instructor may review at their own pace, allowing for more accurate scoring.
- Creating a Flipgrid platform for students to submit performances is also another option. This is ideal for assessment when providing virtual or asynchronous instruction.
 - Create a free account with Flipgrid.com
 - Make an individual “Group” for each class. (This will help you to keep classes organized.)
 - Within the “Group” create a “Topic” for your Pre Test, and Create another “Topic” for your Post Test. Once you have created the instructions and details for one class you can use that as a template for all others to save time.
 - Application of Flipgrid can be used in class if computers are available (ex. a center or station activity), virtually or as homework asynchronously.
- Peer assessment is also another option. This can be done in student pairs with attention to specific criteria.
 - Each student has a paper that a partner completes on their performance of the dance. Partners take turns in watching the each other and complete the *Dance Peer Assessment* form
- Self assessment at the end of practice is also an option for quick feedback of student competency and affect.
 - Each student uses the *Dance Personal Assessment* form to reflect on their own performance of the dance.

Accommodations & Extensions

- During initial instruction, have students follow and mirror the video.
 - For novice or unconfident movers you can stop and replay instruction points of each section until students are comfortable with each movement phrase.

- Repetition is key to quality reproduction. Make sure to give plenty of time for practice.
- Place confident “leader” students on the perimeter of the dance space; right, left and behind the majority of the group. Kinesthetic proximity is a wonderful tool in guiding others so surround novice movers with students that can help guide them in their movements.
- Once competency is reached, the instructor may have students perform this dance at a special event (ex. PTO night, school performance, etc.).
- For student creativity and expression, have students give input on:
 - Class formation - design of dancer placement in the dance space. (ex. straight lines vertically, straight lines horizontally, staggering lines with windows, pyramid, circle, square, etc.)
 - Substitute one or two dance moves in the phrase, replace with other movements that the students choose. You can provide choices from existing moves they already know (ex. Fortnite, jazz, line dance, etc.) or they can make their own.
